

物理談話会 5月17日16:20-17:20 @ コラボ室

Professor Louis Lyons

(Imperial College London & Emeritus at Oxford)

”Statistics In Neutrino and Collider Physics”

Lecturer: Professor Louis Lyons (Imperial College London & Emeritus at Oxford)

Title: Statistics In Neutrino and Collider Physics

Dates: May 17 (Tues), 16:20 – 17:20

Place: 3rd Floor, Collaboration Room (Physics)

Contact: Makoto Sakuda

(sakuda-m@okayama-u.ac.jp)

Abstract: He will address fundamental statistical issues in the broad range of modern neutrino physics, including making measurements of model parameters, setting limits, discovery criteria, discrete choice of models, Bayesian vs. frequentist inference, and combining experiments.
